DAVENPORT, Iowa (Feb. 04, 2021) —Lee Enterprises, Incorporated (NYSE: LEE), a leading provider of high quality, trusted, local news, information and a major platform for advertising in 77 markets, today reported first quarter fiscal 2021 financial results⁽¹⁾ for the period ended December 27, 2020. On a GAAP basis, total operating revenue was \$211.8 million and net income totaled \$16.4 million in the first quarter.

"We are off to a great start in fiscal year 2021 as we continue to improve our operating results mitigating the effects of the pandemic," said Kevin Mowbray, President and Chief Executive Officer. "Adjusted EBITDA totaled \$40.0 million in the first quarter as we continue to see sequential revenue trend improvement as total operating revenue on a pro forma basis was down 10.9% in the first quarter compared to third and fourth quarter of fiscal year 2020 trends that were down 16.9% and 24.7%, respectively. As we remain focused on executing at a high level in today's uncertain advertising revenue environment, we are keenly focused on transforming our business models for the long term benefit of our shareholders, our consumers, our advertisers and our employees."

"To that end, we have made significant progress on our digital transformation strategy. Total digital revenue in the quarter totaled \$62.5 million, or 29.4% of our total operating revenue. Digital-only subscriptions continue to grow at a rapid rate – up 69.2% compared to the prior year, and we now have 286,000 paid digital-only subscribers to our products that are helping drive our audience revenue performance. The growth in digital-only subscriptions and digital-only revenue helped drive a 1.9% quarter over quarter growth in subscription revenue."

"On the advertising side, we are focused on diversifying the products and services that we offer to local advertisers. We are seeing growth at Amplified Agency, our full service digital marketing agency, and in video revenue, which combined posted a 16.5% increase in revenue in the first quarter compared to last year. Additionally, through strong relationships in our local communities, we earned \$3.0 million in advertising revenue from state and local political campaigns. Total advertising revenue on a pro forma basis was down 20.0% in the first quarter, a 670 bps sequential trend improvement from the fourth quarter 2020 trends," Mowbray added.

"TownNews is the digital backbone of our operations and provides a platform for enhancing our product development efforts across the organization. Revenue at TownNews on a standalone basis increased 8.5%, continuing a long line of quarter over quarter revenue growth. With growth in audience revenue and revenue at TownNews, 45% of our total operating revenue is now subscription-based," said Mowbray.

"The first quarter marked a significant milestone in our transformation efforts as we achieved our \$100 million cost reduction target," said Tim Millage, Vice President, Chief Financial Officer and Treasurer. "We established this challenging goal in the spring of last year and we reached our target nine months early. We realized \$103 million in cost synergies since the BH Media⁽⁴⁾ and Buffalo⁽⁴⁾ acquisitions through acquisition integration and efforts to reign in our legacy print cost structure. Strong revenue performance combined with appropriate cost management resulted in Adjusted EBITDA⁽³⁾ of \$40.0 million in the first quarter. With a learner organization, a solid post-pandemic operating strategy and a proven ability to execute give us a lot of optimism as we move past the pandemic and continue to transform into a strong digital subscription business," Millage added.

(3) The following are non-GAAP (Generally Accepted Accounting Principles) financial measures for which reconciliations to relevant GAAP measures are included in tables accompanying this release:

- **Adjusted EBITDA** is a non-GAAP financial performance measure that enhances financial statement users overall understanding of the operating performance of the Company. The measure isolates unusual, infrequent or non-cash transactions from the operating performance of the business. This allows users to easily compare operating performance among various fiscal periods and how management measures the performance of the business. This measure also provides users with a benchmark that can be used when forecasting future operating performance of the Company that excludes unusual, nonrecurring or one time transactions. Adjusted EBITDA is a component of the calculation used by stockholders and analysts to determine the value of our business when using the market approach, which applies a market multiple to financial metrics. It is also a measure used to calculate the leverage ratio of the Company, which is a key financial ratio monitored and used by the Company and its investors. Adjusted EBITDA is defined as net income (loss), plus non-operating expenses, income tax expense, depreciation and amortization, assets loss (gain) on sales, impairments and other, restructuring costs and other, stock compensation and our 50% share of EBITDA from TNI and MNI, minus equity in earnings of TNI and MNI.
- **Cash Costs** represent a non-GAAP financial performance measure of operating expenses which are measured on an accrual basis and settled in cash. This measure is useful to investors in understanding the components of the Company's cash-settled operating costs. Periodically, the Company provides forward-looking guidance of Cash Costs, which can be used by financial statement users to assess the Company's ability to manage and control its operating cost structure. Cash Costs are defined as compensation, newsprint and ink and other operating expenses. Depreciation and amortization, assets loss (gain) on sales, impairments and other, other non-cash operating expenses and other expenses are excluded. Cash Costs also exclude restructuring costs and other, which are typically paid in cash.

(4) On March 16, 2020 (the "Closing Date"), the Company closed the acquisition of the newspaper assets of BH Media Group ("BH Media") and the stock of The Buffalo News, Inc. ("Buffalo"). Legacy Lee refers to the operating assets and results of operations of the Company prior to the Closing Date, and is synonymous with same store results.

(5) The Company's debt is the \$576 million term loan under a credit agreement with BH Finance LLC dated January 29, 2020 (the "Credit Agreement"). Excess Cash Flow is defined under the Credit Agreement as any cash greater than \$20,000,000 on the balance sheet in accordance with GAAP at the end of each fiscal quarter, beginning with the quarter ending June 28, 2020.

(6) TNI refers to TNI Partners publishing operations in Tucson, AZ. MNI refers to Madison Newspapers, Inc. publishing operations in Madison, WI.
