

CORRECTING and REPLACING Lee Enterprises Reports Results for Fourth Fiscal Quarter

December 12, 2014

DAVENPORT, Iowa--(BUSINESS WIRE)--Dec. 11, 2014-- *A previous version of this news release should have said that debt reduction since the end of the fiscal year ended September 28, 2014, totaled \$15.3 million, rather than \$12.3 million. The corrected amount is included below. The change has no impact on any reported amounts for the quarter or the full year.*

Fourth paragraph, seventh bullet should read: Debt was reduced \$10.3 million in the quarter and another \$15.3 million since the end of our fiscal year. (Instead of Debt was reduced \$10.3 million in the quarter and another \$12.3 million since the end of our fiscal year.)

The corrected release reads:

LEE ENTERPRISES REPORTS RESULTS FOR FOURTH FISCAL QUARTER

Lee Enterprises, Incorporated (NYSE:LEE), a major provider of local news, information and advertising in 50 markets, today reported preliminary⁽¹⁾ earnings of 6 cents per diluted common share for its fourth fiscal quarter ended September 28, 2014, compared with a loss of \$1.71 a year ago. Excluding unusual matters, adjusted earnings per diluted common share⁽²⁾ totaled 2 cents, compared with earnings of 25 cents a year ago. For the full year, earnings per diluted common share totaled \$0.13 compared to a loss of \$1.51 in the prior year, and adjusted earnings per diluted common share decreased to \$0.41 from \$0.47.

Mary Junck, chairman and chief executive officer, said: "Lee continues to drive digital revenue and audiences at an accelerating pace. Our rapid digital growth, along with our many print and new digital initiatives, positions us especially well, we believe, for a strong 2015. Our successful introduction of full access subscriptions also continues to heighten our optimism, as our unmatched local news gives us a powerful advantage in every market."

She added: "For the fiscal year, through our business transformation initiatives, we reduced cash costs⁽²⁾ 2.4% as reported, and 3.7% excluding the subscription-related expense reclassification, exceeding our previous guidance of a decrease of 3.0-3.5%. Since 2007 we have reduced cash costs by more than 37%, totaling \$297 million. Additionally, we achieved our sixth consecutive year of strong and stable adjusted EBITDA⁽²⁾ and unlevered free cash flow⁽²⁾ and returned to profitability for the first year since 2010."

She also noted the following financial highlights for the quarter:

- Total digital revenue increased 24.6% from the same quarter a year ago, with the trend improving each quarter of this year;
- Digital advertising revenue increased 14.8% and represented 18.5% of total advertising revenue;
- Mobile advertising revenue increased 38.3%;
- We have rolled out our full access subscription model in the majority of our markets;
- Overall revenue trends improved again this quarter, with total revenue down 0.2% from the same quarter a year ago;
- Digital audiences continued to grow at a double digit clip with 231.3 million mobile, tablet, desktop and app page views and 30.0 million unique visitors in the month of September 2014; and
- Debt was reduced \$10.3 million in the quarter and another \$15.3 million since the end of our fiscal year.

FOURTH QUARTER OPERATING RESULTS

Operating revenue for the 13 weeks ended September 28, 2014 totaled \$162.1 million, a decrease of 0.2% compared with a year ago. Excluding the impact of a subscription-related expense reclassification as a result of moving to fee-for-service delivery contracts at several of our newspapers, operating revenue decreased 3.0%. This reclassification will increase both print subscription revenue and operating expenses, with no impact on operating cash flow⁽²⁾ or operating income. Certain delivery expenses were previously reported as a reduction of revenue. A table later in this release details the impact of the reclassification on revenue and cash costs.

Combined print and digital advertising and marketing services revenue decreased 3.4% to \$106.6 million, with retail advertising down 4.6%, classified down 3.6% and national up 5.6%. Retail preprint advertising decreased 4.9%. Combined print and digital classified employment revenue increased 2.2%, while automotive decreased 13.3%, real estate decreased 6.8% and other classified increased 0.5%. Digital advertising and marketing services revenue on a stand-alone basis increased 14.8% to \$19.7 million and now totals 18.5% of total advertising and marketing services revenue. Mobile advertising revenue increased 38.3%. Print advertising and marketing services revenue on a stand-alone basis decreased 6.7%.

Subscription revenue increased 6.1%. Excluding the impact of the subscription-related expense reclassification, subscription revenue decreased 4.2%.

Total digital revenue, including advertising, marketing services, subscriptions and digital businesses, totaled \$24.7 million in the quarter, up 24.6%.

Cash costs increased 2.7% for the 13 weeks ended September 28, 2014. Compensation decreased 1.3%, with the average number of full-time

equivalent employees down 3.3%. Newsprint and ink expense decreased 12.3%, primarily the result of a reduction in newsprint volume of 10.7%. Other operating expenses increased 10.6%. Excluding the impact of the subscription-related expense reclassification, cash costs decreased 0.8%. We expect our cash costs, excluding the subscription-related expense reclassification, to decrease 1.0-2.0% in the December 2014 quarter.

Operating cash flow decreased 10.0% from a year ago to \$33.7 million. Operating cash flow margin⁽²⁾ decreased to 20.8%, compared to 23.1% a year ago. We recorded \$2.6 million of non-cash impairment losses in the current year quarter compared to \$171.1 million in the prior year quarter. Including equity in earnings of associated companies, depreciation and amortization, as well as unusual matters in both years, operating income totaled \$20.7 million in the current year quarter, compared with an operating loss of \$142.4 million a year ago. Operating income margin was 12.8% in the current year quarter.

Non-operating expenses decreased 27.4% for the 13 weeks ended September 28, 2014. Interest expense decreased 11.2% due to lower debt balances and non-cash interest expense of \$1.2 million in the prior year quarter. We recognized \$5,543,000 of non-operating income in the current year quarter due to the change in fair value of stock warrants issued in connection with our refinancing in 2014. Income attributable to Lee Enterprises, Incorporated for the quarter totaled \$3.2 million, compared with a loss of \$88.7 million a year ago.

FULL ACCESS SUBSCRIPTION INITIATIVE

As previously reported, we launched our full access subscription initiative in April. As of today, 30 markets have been launched and we are on track to launch all of our markets before June 2015. Early results are promising, with large numbers of print subscribers activating their digital subscriptions in the markets launched. And, thanks in part to a major customer service initiative, subscriber losses have been lower than expected. We expect subscription revenue in the December 2014 quarter, excluding the impact of the subscription-related expense reclassification, to be comparable to the prior year level. Also as previously reported, due to the timing of the rollout and subscriber renewal dates, we expect the bulk of the positive revenue from this initiative to be realized in 2015.

YEAR-TO-DATE OPERATING RESULTS⁽³⁾

In 2014, we continued to drive strong digital revenue growth, transform our business, and rapidly reduce debt. Highlights for the year include the following:

- Digital advertising revenue reached \$75.2 million for the year, an increase of 12.0%, contributing to total digital revenue growth of 17.1% and improved overall advertising trends compared to the prior year;
- We reduced reported cash costs 2.4%, and 3.7% excluding the subscription-related expense reclassification, exceeding guidance of a decrease of 3.0-3.5%. Since 2007 we have reduced cash costs of our continuing operations by more than 37%, totaling \$297 million;
- We achieved our sixth consecutive year of strong and stable adjusted EBITDA and unlevered free cash flow;
- The Company returned to profitability, as reported, for the first year since 2010;
- We completed a comprehensive refinancing of our long-term debt, significantly extending maturities, improving operating flexibility and providing a substantial runway for the future;
- Debt principal reduction totaled \$42.8 million in 2014 and \$32 million borrowed to fund refinancing costs was also repaid; and
- The Company's stock price increased 24% during the year, resulting in an increase in equity value to stockholders of \$38

million.

Operating revenue for the 52 weeks ended September 28, 2014, totaled \$656.7 million, a decrease of 2.7% compared with the 52 weeks ended September 29, 2013. Excluding the impact of the subscription-related expense reclassification, operating revenue decreased 3.7%.

Combined print and digital advertising and marketing services revenue decreased 4.0% to \$442.0 million, retail advertising decreased 3.4%, classified decreased 7.0% and national increased 3.6%. Retail preprint advertising decreased 1.7%. Combined print and digital classified employment revenue decreased 1.3%, while automotive decreased 14.2%, real estate decreased 6.2% and other classified decreased 6.1%. Digital advertising and marketing services revenue on a stand-alone basis increased 12.0% to \$75.2 million. Mobile advertising revenue increased 27.6%. Print advertising and marketing services revenue on a stand-alone basis decreased 6.8%.

Subscription revenue decreased 0.1%. Excluding the impact of the subscription-related expense reclassification, subscription revenue decreased 3.9%.

Total digital revenue totaled \$90.2 million year to date, up 17.1% compared with a year ago.

Cash costs for the 52 weeks ended September 28, 2014 decreased 2.4% compared to the same period a year ago. Compensation decreased 4.6%, with the average number of full-time equivalent employees down 4.8%. Newsprint and ink expense decreased 12.6%, primarily the result of a reduction in newsprint volume of 11.5%. Other operating expenses increased 3.0%. Excluding the impact of the subscription-related expense reclassification, cash costs decreased 3.7%.

Operating cash flow decreased 3.5% from a year ago to \$155.1 million. Operating cash flow margin decreased to 23.6% from 23.8% a year ago. We recorded \$3.0 million of noncash impairment losses in the current year compared to \$171.1 million in the prior year. Including equity in earnings of associated companies, depreciation and amortization, as well as unusual matters in both years, operating income increased to \$113.2 million in the 52 weeks ended September 28, 2014, compared with an operating loss of \$57.3 million a year ago.

Non-operating expenses increased 21.2%, as we charged \$22.9 million of debt financing costs to expense and recorded a \$2.3 million loss related to a litigation settlement in 2014. These costs were partially offset by a 10.9% decrease in interest expense in the current year, due to lower debt balances and the refinancing of the Pulitzer Notes in May 2013, and \$6,122,000 of non-operating income from the change in fair value of stock warrants. We recorded a \$6.9 million gain on sale of an investment in the prior year period. Income attributable to Lee Enterprises, Incorporated for the year totaled \$6.8 million, compared to a loss of \$78.3 million a year ago.

DEBT AND FREE CASH FLOW⁽²⁾

Debt was reduced \$10.3 million in the quarter and by a net amount of \$42.8 million for the fiscal year. As of September 28, 2014 the principal amount of debt was \$804.8 million. As previously announced, on March 31, 2014, we completed a comprehensive refinancing of our long-term debt and borrowed an additional \$32.0 million of debt in order to pay related debt refinancing costs, which was also repaid during the year.

Unlevered free cash flow totaled \$32.2 million in the current year quarter compared to \$47.5 million in the same quarter a year ago. Timing of receipt of income tax refunds was the biggest reason for the decrease. Unlevered free cash flow totaled \$159.2 million for the fiscal year compared to \$166.8 million in the prior year.

CONFERENCE CALL INFORMATION

As previously announced, we will hold an earnings conference call and audio webcast later today at 9 a.m. Central Standard Time. NOTES

- (1) This earnings release is a preliminary report of results for the periods included. The reader should refer to the Company's most recent reports on Form 10-Q and on Form 10-K for definitive information.
- (2) The following are non-GAAP (Generally Accepted Accounting Principles) financial measures for which reconciliations to relevant GAAP measures are included in tables accompanying this release:

- *Adjusted EBITDA* is defined as operating income (loss), plus depreciation, amortization, impairment charges, stock compensation and 50% of EBITDA from associated companies, minus equity in earnings of associated companies and curtailment gains.
- *Adjusted Income (Loss)* and *Adjusted Earnings (Loss) Per Common Share* are defined as income (loss) attributable to Lee Enterprises, Incorporated and earnings (loss) per common share adjusted to exclude both unusual matters and those of a substantially non-recurring nature.
- *Cash Costs* are defined as compensation, newsprint and ink, other operating expenses and certain unusual matters, such as workforce adjustment costs. Depreciation, amortization, impairment charges, other non-cash operating expenses and other unusual matters are excluded.
- *Operating Cash Flow* is defined as operating income (loss) plus depreciation, amortization and impairment charges, minus equity in earnings of associated companies and curtailment gains. *Operating Cash Flow margin* is defined as operating cash flow divided by operating revenue. The terms operating cash flow and EBITDA are used interchangeably.
- *Unlevered Free Cash Flow* is defined as operating income (loss), plus depreciation, amortization, impairment charges, stock compensation, distributions from associated companies and cash income tax refunds, minus equity in earnings of associated companies, curtailment gains, cash income taxes, pension contributions and capital expenditures. Changes in working capital, asset sales, minority interest and discontinued operations are excluded. *Free Cash Flow* also includes financial income, interest expense and debt financing and reorganization costs.

We also present selected information for Lee Legacy and Pulitzer Inc. ("Pulitzer"). Lee Legacy constitutes the business of the Company excluding Pulitzer, a wholly-owned subsidiary of the Company.

No non-GAAP financial measure should be considered as a substitute for any related GAAP financial measure. However, the Company believes the use of non-GAAP financial measures provides meaningful supplemental information with which to evaluate its financial performance, or assist in forecasting and analyzing future periods. The Company also believes such non-GAAP financial measures are alternative indicators of performance used by investors, lenders, rating agencies and financial analysts to estimate the value of a publishing business and its ability to meet debt service requirements.

- (3) Certain amounts as previously reported have been reclassified to conform with the current period presentation. The prior periods have been adjusted for comparative purposes, and the reclassifications have no impact on earnings.

Results of *North County Times* operations and *The Garden Island* operations have been reclassified as discontinued operations for all periods presented.
