ACCELERATING DIGITAL TRANSFORMATION: THREE PILLAR DIGITAL GROWTH STRATEGY

PILLAR 1

Transform the presentation of local news and information

- Expand and upgrade video capabilities to drive outsized growth traffic and monetization
- Significantly improve digital presentations and video content
- Focus on multiformat, rich digital content
- Invest in new content channels where we have niche expertise, like Husker Extra

PILLAR 2

Accelerate subscription growth

- Transform subscription model to more than double digital-only subscriptions over next five years
- Capitalize on niche content to drive audiences and subscription revenue
- Aggressively promote dynamic video and graphic content that drives consumption, engagement and digital-only subscriptions

PILLAR 3

Diversify and expand offerings for advertisers

- Leverage content to maximize revenue through video advertising initiatives – custom content, video banner sales, performance and affiliate marketing
- Realize full value of Amplified Agency's capabilities through local market share growth and capturing out-of-market opportunities

55% of our revenue base is annual recurring revenue (ARR)

DIGITAL SUBSCRIBERS SURPASSED 400K IN 2021

Digital Only Subscribers

Fastest growing digital subscription platform in local media

Adjusted EBITDA is a non-GAAP financial performance measure that enhances financial statement users overall understanding of the operating performance of the Company. The measure isolates unusual, infrequent or non-cash transactions from the operating performance of the business. This allows users to easily compare operating performance among various fiscal periods and how management measures the performance of the business. This measure also provides users with a benchmark that can be used when forecasting future operating performance of the Company that excludes unusual, nonrecurring or one time transactions. Adjusted EBITDA is a component of the calculation used by stockholders and analysts to determine the value of our business when using the market approach, which applies a market multiple to financial metrics. It is also a measure used to calculate the leverage ratio of the Company, which is a key financial ratio monitored and used by the Company and its investors. Adjusted EBITDA is defined as net income (loss), plus non-operating expenses, income tax expense, depreciation and amortization, assets loss (gain) on sales, impairments and other, restructuring costs and other, stock compensation and our 50% share of EBITDA from TNI and MNI, minus equity in earnings of TNI and MNI.
