**1 BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying unaudited, interim, Consolidated Financial Statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission for quarterly reports. In the opinion of management, these financial statements contain all adjustments (consisting of only normal recurring items) necessary to present fairly the financial position of Lee Enterprises, Incorporated and its subsidiaries (the “Company”) as of March 26, 2023, and our results of operations and cash flows for the periods presented. The Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in the Company’s 2022 Annual Report on Form 10-K.

The Company’s fiscal year ends on the last Sunday in September. Fiscal year 2023 ends on September 24, 2023, and fiscal year 2022 ended September 25, 2022. Fiscal year 2023 and 2022 are 52-week years with 13 weeks in each quarter. Because of seasonal and other factors, the results of operations for the three and six months ended March 26, 2023, are not necessarily indicative of the results to be expected for the full year.

The Consolidated Financial Statements include our accounts and those of our wholly owned subsidiaries, as well as our 82.5% interest in INN Partners, L.C. (“BLOX Digital” , formerly “TownNews”).

Our 50% interest in TNI Partners (“TNI”) and our 50% interest in Madison Newspapers, Inc. (“MNI”) are accounted for using the equity method and are reported at cost, plus our share of undistributed earnings since acquisition less, for TNI, amortization of intangible assets.

**Recognition principles:** Revenue is recognized when a performance obligation is satisfied by the transfer of control of the contracted goods or services to our customers, in an amount that reflects the consideration we expect to receive in exchange for those goods or services.

**Arrangements with multiple performance obligations:** We have various advertising and subscription agreements which include both print and digital performance obligations. Revenue from sales agreements that contain multiple performance obligations are allocated to each obligation based on the relative standalone selling price. We determine standalone selling prices based on observable prices charged to customers.

**Contract Assets and Liabilities:** The Company's primary source of contract liabilities is unearned revenue from subscriptions paid in advance of the service provided. The Company expects to recognize the revenue related to unsatisfied performance obligations over the next twelve months in accordance with the terms of the subscriptions and other contracts with customers. Revenue recognized in the six months ended March 26, 2023, that was included in the contract liability as of September 25, 2022, was \$41.2 million.

Accounts receivable, excluding allowance for credit losses were \$72.7 million and \$74.8 million as of March 26, 2023, and September 25, 2022, respectively. Allowance for credit losses was \$5.1 million and \$5.2 million as of March 26, 2023, and September 25, 2022, respectively.

Sales commissions are expensed as incurred as the associated contractual periods are one year or less. These costs are recorded within compensation. Most of our contracts have original expected lengths of one year or less and revenue is earned at a rate and amount that corresponds directly with the value to the customer.

Through March 26, 2023, our liability and related expense for benefits under the plans are recorded over the service period of employees based upon annual actuarial calculations.

The net periodic pension and postretirement cost (benefit) components for our plans are as follows:

In the six months ended March 26, 2023 and March 27, 2022, we made no contributions to our pension plans. We have no required contributions to our pension plans for 2023.

### Multiemployer Pension Plans

In prior periods, the Company effectuated withdrawals from several multiemployer plans. As of March 26, 2023, and September 25, 2022, we had \$23.4 million and \$25.0 million of accrued withdrawal liabilities. The liabilities reflect the estimated value of payments to the fund, payable over 20 years.

## 7 INCOME TAXES

We recorded an income tax benefit of \$2.1 million related to loss before taxes of \$7.4 million for the three months ended March 26, 2023, and an income tax benefit of \$1.6 million related to a loss before income taxes of \$5.2 million for the six months ended March 26, 2023. We recorded an income tax benefit of \$3.1 million related to income before taxes of \$9.8 million for the three months ended March 27, 2022 and income tax expense of \$2.2 million related to income before income taxes of \$8.7 million for the six months ended March 27, 2022. The effective income tax rate for the three and six months ended March 26, 2023, were 27.8% and 31.5%, respectively. The effective income tax rate for the three and six months ended March 27, 2022, were 32.0% and 25.3%, respectively.

The primary differences between these rates and the U.S. federal statutory rate of 21% are because of state taxes, non-deductible expenses, adjustments to reserves for uncertain tax positions, including any related interest, and mark-to-market adjustments to value stock warrants.

We file a consolidated federal tax return, as well as combined and separate tax returns in approximately 27 state and local jurisdictions. We do not currently have any federal or material state income tax examinations in progress. Our income tax returns have generally been audited or closed to audit through 2015.

### Legal Proceedings

We are involved in a variety of legal actions that arise in the normal course of business. Insurance coverage mitigates potential loss for certain of these matters. ### Operating Revenue

Total operating revenue was \$170.7 million in the 2023 Quarter, down \$19.3 million, or 10.2%, compared to the prior year.

Advertising and marketing services revenue totaled \$77.7 million in the 2023 Quarter, down 11.3% compared to the 2022 Quarter. Advertising revenue, print and digital, was adversely affected by a wide spread pull back in advertising spending. Print advertising revenues were \$31.5 million in the 2023 Quarter, down 28.9% compared to the 2022 Quarter due to the soft advertising environment and a continued secular declines in demand for print advertising. Digital advertising and marketing services totaled \$46.3 million in the 2023 Quarter, up 6.6% compared to the 2022 Quarter. These gains resulted from an increase in Amplified Digital® revenue. Digital advertising and marketing services represented 59.5% of the 2023 Quarter total advertising and marketing services revenue, compared to 49.5% in the same period last year.

Subscription revenue totaled \$78.6 million in the 2023 Quarter, down 10.0% compared to the 2022 Quarter. Decline in full access volume, consistent with historical and industry trends was partially offset by selective price increases on our full access subscriptions, growth in digital-only subscribers and price increases on digital subscriptions. Digital-only subscribers grew 21.0% since the 2023 Quarter and now total 596,000, and revenue from digital-only subscribers totaled \$14.0 million, up 38.7% compared to the 2022 Quarter.

Other revenue, which primarily consists of commercial printing revenue and digital services from BLOX Digital, decreased \$0.6 million, or 4.2%, in the 2023 Quarter compared to the 2022 Quarter. Digital services revenue totaled \$4.8 million in the 2023 Quarter, a 2.1% increase compared to the 2022 Quarter. Commercial printing revenue totaled \$4.8 million in the 2023 Quarter, a 7.4% decrease compared to the 2022 Quarter, primarily driven by reduction in print volumes from our partners.

Total digital revenue including digital advertising revenue, digital subscription revenue and digital services revenue totaled \$65.0 million in the 2023 Quarter, an increase of 11.8% over the 2022 Quarter, and represented 38.1% of our total operating revenue in the 2023 Quarter.

Equity in earnings of TNI and MNI decreased 0.7 in the 2023 Quarter.

### **Operating Expenses**

Total operating expenses were \$168.5 million in the 2023 Quarter, a 13.4% decrease compared to the 2022 Quarter. Cash Costs, a non-GAAP financial measure used to summarize certain operating expense (see reconciliation of non-GAAP financial measures below), were down 9.9% in the 2023 Quarter.

Compensation expense decreased \$14.7 million in the 2023 Quarter, or 17.6%, compared to the 2022 Quarter from reductions in headcount due to continued business transformation efforts, partially offset by investments in digital talent.

Newsprint and ink costs decreased \$0.6 in the 2023 Quarter, or 8.5%, compared to the 2022 Quarter. The decrease is attributable to declines in newsprint volumes offset by higher newsprint prices. See Item 3, "Commodities", included herein, for further discussion and analysis of the impact of newsprint on our business.

Other operating expenses decreased \$2.1 in the 2023 Quarter, or 2.5%, compared to the 2022 Quarter. Other operating expenses include all operating costs not considered to be compensation, newsprint, depreciation and amortization, or restructuring costs and assets loss on sales, impairments, and other, net. The largest components are costs associated with printing and distribution of our printed products, digital costs of goods sold and facility expenses. The decrease is attributable to lower delivery and other print-related costs due to lower volumes of our print editions partially offset by investments to fund our digital growth strategy.

Restructuring costs and other totaled \$3.7 million and \$10.6 million in the 2023 Quarter and 2022 Quarter, respectively. Restructuring costs and other include severance costs, litigation expenses, restructuring expenses, and advisor expenses. Restructuring costs in the 2023 Quarter are predominately severance related to our ongoing business transformation, while restructuring costs in the 2022 quarter also include costs associated with the unsolicited offer in November 2021.

Depreciation and amortization expense decreased \$1.2 million, or 13.6%, in the 2023 Quarter. The decrease in both is attributable to assets becoming fully depreciated or amortized.

Assets gain on sales, impairments and other, was a net gain of \$0.8 million in the 2023 Quarter compared to a net gain of \$0.2 million in the 2022 Quarter. Assets gain on sales, impairments and other in the 2023 Quarter and in the 2022 Quarter were the result of the disposition of non-core assets, including real estate.

The factors noted above resulted in an operating income of \$2.9 million in the 2023 Quarter compared to an operating loss of \$3.2 million in the 2022 Quarter.

#### **Non-operating Income and Expense**

Interest expense was flat at \$10.5 million in the 2023 Quarter, compared to the same period last year. Our weighted average cost of debt was 9.0% at the end of the 2023 Quarter and 2022 Quarter.

Other non-operating income and expense consists of benefits associated with our pension and other postretirement plans and the fair value adjustment of our Warrants. We recorded \$0.3 million periodic pension and other postretirement benefits in the 2023 Quarter compared to \$3.6 million in the 2022 Quarter.

We recognized pension withdrawal costs in the 2022 Quarter of \$2.3 million, in connection with the withdrawal from a pension plan that covered certain employees. This withdrawal liability will be paid in equal quarterly installments over the next 20 years.

#### **Income Tax Expense (Benefit)**

We recorded an income tax benefit of \$2.1 million, or 27.8% of pretax loss in the 2023 Quarter. In the 2022 Quarter, we recognized an income tax benefit of \$3.1 million, or 32.0% of pretax loss.

#### **Net Income (Loss) and Earnings (Losses) Per Share**

Net loss was \$5.4 million and diluted losses per share were \$1.01 for the 2023 Quarter compared to net loss of \$6.7 million and diluted losses per share of \$1.26 for the 2022 Quarter. The change reflects the various items discussed above.

#### **NON-GAAP FINANCIAL MEASURES**

We use non-GAAP financial performance measures to supplement the financial information presented on a GAAP basis. These non-GAAP financial measures should not be considered in isolation or as a substitute for the relevant GAAP measures and should be read in conjunction with information presented on a GAAP basis.

In this report, we present Adjusted EBITDA and Cash Costs which are non-GAAP financial performance measures that exclude from our reported GAAP results the impact of certain items consisting primarily of restructuring charges and non-cash charges. We believe such expenses, charges and gains are not indicative of normal, ongoing operations, and their inclusion in results makes for more difficult comparisons between years and with peer group companies. In the future, however, we are likely to incur expenses, charges and gains similar to the items for which the applicable GAAP financial measures have been adjusted and to report non-GAAP financial measures excluding such items. Accordingly, exclusion of those or similar items in our non-GAAP presentations should not be interpreted as implying the items are non-recurring, infrequent, or unusual.

We define our non-GAAP measures, which may not be comparable to similarly titled measures reported by other companies, as follows:

*Adjusted EBITDA* is a non-GAAP financial performance measure that enhances financial statement users' overall understanding of the operating performance of the Company. The measure isolates unusual, infrequent, or non-cash transactions from the operating performance of the business. This allows users to easily compare operating performance among various fiscal periods and how management measures the performance of the business. This measure also provides users with a benchmark that can be used when forecasting future operating performance of the Company that excludes unusual, nonrecurring or one-time transactions. Adjusted EBITDA is also a component of the calculation used by stockholders and analysts to determine the value of our

business when using the market approach, which applies a market multiple to financial metrics. It is also a measure used to calculate the leverage ratio of the Company, which is a key financial ratio monitored and used by the Company and its investors. Adjusted EBITDA is defined as net income (loss), plus non-operating expenses, income tax expense, depreciation and amortization, assets loss (gain) on sales, impairments and other, restructuring costs and other, stock compensation and our 50% share of EBITDA from TNI and MNI, minus equity in earnings of TNI and MNI.

Cash Costs represent a non-GAAP financial performance measure of operating expenses which are measured on an accrual basis and settled in cash. This measure is useful to investors in understanding the components of the Company's cash-settled operating costs. Generally, the Company provides forward-looking guidance of Cash Costs, which can be used by financial statement users to assess the Company's ability to manage and control its operating cost structure. Cash Costs are defined as compensation, newsprint and ink and other operating expenses. Depreciation and amortization, assets loss (gain) on sales, impairments and other, other non-cash operating expenses and other expenses are excluded. Cash Costs also exclude restructuring costs and other, which are typically settled in cash.

Adjusted EBITDA and Cash Costs are reconciled to net income (loss) and operating expenses, below, the closest comparable numbers under GAAP.

## LIQUIDITY AND CAPITAL RESOURCES

Our operations have historically generated strong positive cash flow and are expected to provide sufficient liquidity, together with cash on hand, to meet our requirements, primarily operating expenses, interest expense and capital expenditures. A summary of our cash flows is included in the narrative below.

### Operating Activities

Cash provided by operating activities totaled \$0.6 million in 2023 compared to cash required for operating activities of \$0.6 million in 2022, an increase of \$1.3 million. The increase was driven by an increase in working capital of \$8.0 million primarily related to favorable changes to receivables and income taxes, partially offset by a decrease in operating results of \$6.8 million, (defined as net income (loss) adjusted for non-working capital items).

### Investing Activities

Cash provided by investing activities totaled \$5.0 million in the 2023 Period compared to cash provided by investing activities of \$9.9 million in the 2022 Period. 2023 and 2022 included \$5.1 million and \$14.7 million, respectively, in proceeds from the sale of assets as the Company divested non-core real estate.

We anticipate that funds necessary for capital expenditures, which are expected to total up to \$10.0 million in 2023, and other requirements, will be available from internally generated funds.

### Financing Activities

Cash required for financing activities totaled \$2.8 million in the 2023 Period compared to \$20.1 million in the 2022 Period. Debt reduction accounted for nearly all the usage of funds in both periods.

### Additional Information on Liquidity

Our liquidity, consisting of cash on the balance sheet, totaled \$19.0 million on March 26, 2023. This liquidity amount excludes any future cash flows from operations. We expect all interest and principal payments due in the next twelve months will be satisfied by existing cash and our cash flows, which will allow us to maintain an adequate level of liquidity.

## CHANGES IN LAWS AND REGULATIONS

### Wage Laws

The United States and various state and local governments are considering increasing their respective minimum wage rates. Most of our employees are paid more than the current United States or state minimum wage rates. However, until changes to such rates are enacted, the impact of the changes cannot be determined.

## FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides a “safe harbor” for forward-looking statements. This report contains information that may be deemed forward-looking that is based largely on our current expectations, and is subject to certain risks, trends and uncertainties that could cause actual results to differ materially from those anticipated. Among such risks, trends and other uncertainties, which in some instances are beyond our control, are:

- The overall impact the COVID-19 pandemic has on the Company's revenues and costs;
- The long-term or permanent changes the COVID-19 pandemic may have on the publishing industry, which may result in permanent revenue reductions and other risks and uncertainties;
- We may be required to indemnify the previous owners of the BH Media or Buffalo News for unknown legal and other matters that may arise;
- Our ability to manage declining print revenue and circulation subscribers;
- The impact and duration of adverse conditions in certain aspects of the economy affecting our business;
- Changes in advertising and subscription demand;
- Changes in technology that impact our ability to deliver digital advertising;
- Potential changes in newsprint, other commodities and energy costs;
- Interest rates;
- Labor costs;
- Significant cyber security breaches or failure of our information technology systems;
- Our ability to achieve planned expense reductions and realize the expected benefit of our acquisitions;
- Our ability to maintain employee and customer relationships;
- Our ability to manage increased capital costs;
- Our ability to maintain our listing status on NASDAQ;
- Competition; and
- Other risks detailed from time to time in our publicly filed documents.

Any statements that are not statements of historical fact (including statements containing the words “may”, “will”, “would”, “could”, “believes”, “expects”, “anticipates”, “intends”, “plans”, “projects”, “considers” and similar expressions) generally should be considered forward-looking statements. Statements regarding our plans, strategies, prospects and expectations regarding our business and industry, including statements regarding the impacts that the COVID-19 pandemic and our responses thereto may have on our future operations, are forward-looking statements. They reflect our expectations, are not guarantees of performance and speak only as of the date the statement is made. Readers are cautioned not to place undue reliance on such forward-looking statements, which are made as of the date of this report. We do not undertake to publicly update or revise our forward-looking statements, except as required by law.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk stemming from changes in interest rates and commodity prices. Changes in these factors could cause fluctuations in earnings and cash flows. In the normal course of business, exposure to certain of these market risks is managed as described below.

#### INTEREST RATES ON DEBT

Our debt structure, which is entirely fixed rate, eliminates the potential impact of an increase in interest rates. We have no interest rate hedging in place.

#### COMMODITIES

Newsprint prices remained steady in the quarter from the increases in prices implemented throughout 2022, but price reductions effective in Q3 of 2023 have been announced. Despite reduced consumption, the newsprint supply chain continues to be challenged due to significant capacity reductions taken in the last two years including paper machine permanent shutdowns, conversion to paper grades other than newsprint, and recovering demand, domestically and exports, for newsprint.

Our long-term supply strategy continues to align the Company with those cost-effective suppliers most likely to continue producing and supplying newsprint to the North American market and geographically aligned with our

print locations. Where possible the Company will align supply with the lowest cost material, but may be restricted due to shipping expenses and paper production availability.

A \$10 per tonne price increase on 27.7-pound newsprint would result in an annualized reduction in income before taxes of approximately \$0.3 million based on current and anticipated consumption trends in 2023, excluding consumption of TNI and MNI and the impact of LIFO accounting.

Our fixed rate debt consists of \$460.0 million principal amount of the Term Loan recorded at carrying value.

#### **Item 4. Controls and Procedures**

##### **EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES**

As of September 25, 2022, under the supervision and with the participation of our senior management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on that evaluation the Company has concluded that, because the material weaknesses in the Company's internal control that existed as of September 25, 2022 have not been remediated by the end of the period covered by this report, our disclosure controls and procedures were not effective.

The material weaknesses identified by the Company are described below:

- Management did not maintain appropriately designed information technology general controls in the areas of user access for certain of its information systems that are relevant to the preparation of the Company's consolidated financial statements and system of internal control over financial reporting.
- Management did not maintain appropriately designed controls over data provided by third-party service organizations for which a System and Organization Controls (SOC) 1 Type 2 report is not available. Specifically, management did not design and implement controls over the validation of the completeness and accuracy of information received from these service organizations and correspondingly relied upon by the Company in the preparation of the Company's consolidated financial statements.
- Management did not maintain appropriately designed controls to validate the accuracy of the tax basis associated with certain deferred tax assets and liabilities, which resulted in an immaterial error correction associated with the Company's previously issued consolidated financial statements.

##### **Remediation Plans and Actions**

Management is committed to remediating the material weaknesses that have been identified and maintaining an effective system of disclosure controls and procedures. These remediation efforts, summarized below, are intended to both address the identified material weaknesses and to enhance our overall financial control environment. In this regard, our initiatives include:

- Establishing a project team to review, evaluate, and remediate material weaknesses in internal controls over financial reporting. The Company's recently expanded Corporate Compliance function will lead management's efforts related to effective control design, documentation, and implementation, as well as remediate ineffective controls.
- Undergoing a complete user access review related to our information technology systems to refine user roles and establish appropriate user access to various systems that the Company relies upon in its internal controls over financial reporting, which includes enhancing user access provisioning and monitoring controls to enforce appropriate system access and segregation of duties.
- Providing training to relevant personnel reinforcing existing Company policies regarding user access and the steps and procedures required to perform the required reviews of access to Company systems.
- Enhancing the design of internal controls around evaluating data provided by third-party service organizations for which a SOC 1, Type 2 is not available to validate completeness and accuracy.

- Enhancing the design of internal controls to validate the accuracy of the tax basis for deferred tax assets and liabilities, including enhancing our record retention policy to include retaining documentation for complex tax items for as long as such tax items impact our consolidated financial statements.

The material weaknesses will be considered remediated when management concludes that, through testing, the applicable remedial controls are designed and implemented effectively.

## PART II OTHER INFORMATION

### Item 1. Legal Proceedings

We are involved in a variety of legal actions that arise in the normal course of business. Insurance coverage mitigates potential loss for certain of these matters. While we are unable to predict the ultimate outcome of these legal actions, it is our opinion that the disposition of these matters will not have a material adverse effect on our Consolidated Financial Statements, taken as a whole.

### Item 1.A Risk Factors

Except as otherwise described herein, there have been no material changes in the risk factors previously disclosed in “Part I, Item 1A. Risk Factors” of our 2022 Form 10-K.

In addition, the Company may, from time to time, evaluate and pursue other opportunities for growth, including through strategic investments, joint ventures, and other acquisitions. These strategic initiatives involve various inherent risks, including, without limitation, general business risk, integration and synergy risk, market acceptance risk and risks associated with the potential distraction of management. Such transactions and initiatives may not ultimately create value for us or our stockholders and may harm our reputation and materially adversely affect our business, financial condition, and results of operations.

### Item 6. Exhibits

Exhibits marked with an asterisk (\*) are incorporated by reference to documents previously filed by us with the SEC, as indicated. Exhibits marked with a plus (+) are management contracts or compensatory plan contracts or arrangements filed pursuant to Item 601(b)(10)(iii)(A) of Regulation S-K. All other documents listed are filed with this Quarterly Report on Form 10-Q.
