## NOTES:

(1) Operating cash flow, which is defined as operating income before depreciation, amortization and equity in net income of associated companies, and operating cash flow margin (operating cash flow divided by operating revenue) represent non-GAAP financial measures. A reconciliation of operating cash flow to operating income, the most directly comparable measure under accounting principles generally accepted in the United States (GAAP), is reflected in the tables accompanying this release. The Company believes that operating cash flow and the related margin ratio are useful measures of evaluating its financial performance because of their focus on the Company's results from operations before depreciation and amortization. The Company also believes that these measures are several of the alternative financial measures of performance used by investors, rating agencies and financial analysts to estimate the value of a company and evaluate its ability to meet debt service requirements.
(2) Certain amounts as previously reported have been reclassified to conform with the current period presentation. Also, in order to report revenue statistics on a basis more consistent with peer newspaper companies and to recognize the growing importance of niche and online advertising revenue, several revenue categories have been reclassified. The prior period has been restated for comparative purposes, and the reclassifications have no impact on earnings.
(3) Same property comparisons exclude acquisitions and divestitures made in the current or prior year. Same property revenue also excludes revenue of Madison Newspapers, Inc., (MNI). Lee owns $50 \%$ of the capital stock of MNI, which for financial reporting purposes is reported using the equity method of accounting.
(4) The Company disclaims responsibility for updating information beyond the release date. on the Company's current expectations and is subject to certain risks, trends and uncertainties that could cause actual results to differ materially from those anticipated. Among such risks, trends and other uncertainties are changes in advertising demand, newsprint prices, interest rates, labor costs, legislative and regulatory rulings and other results of operations or financial conditions, difficulties in integration of acquired businesses or maintaining employee and customer relationships and increased capital and other costs. The words "may," "will," "would," "could," "believes," "expects," "anticipates," "intends," "plans," "projects," "considers" and similar expressions generally identify forward-looking statements. Readers are cautioned not to place undue reliance on such forward-looking statements, which are made as of the date of this release. The Company does not publicly undertake to update or revise its forward-looking statements.

## NEWS RELEASE

## Lee Enterprises reports revenue growth

DAVENPORT, Iowa (April 16, 2004) - Lee Enterprises, Incorporated (NYSE: LEE), reported today that total advertising revenue for February and March increased 6.5 percent over a year ago, and total operating revenue increased 6.2 percent.

Separate February and March comparisons with the previous year are distorted by the movement of an additional Sunday between periods. February 2004 and March 2003 each included five Sundays, while February 2003 and March 2004 each included four Sundays. Even with the loss of a Sunday, however, March 2004 revenue exceeded a year ago.

For the two months combined, on a same property ${ }^{(2)}$ basis, which excludes the impact of acquisitions and divestitures made in the current or prior year, retail advertising revenue increased 4.0 percent over the previous year, and classified revenue rose 6.5 percent, with employment up 18.9 percent, automotive down 4.5 percent, real estate up 9.3 percent, other newspaper classified categories up 0.5 percent, and classified in non-daily publications up 7.4 percent. National advertising revenue, a small category for Lee, increased 25.5 percent. Niche publication revenue increased 12.9 percent and online advertising revenue increased 45.6 percent. Total advertising revenue increased 6.5 percent. Circulation revenue was flat.

The following tables combine February and March operating revenue and volume to eliminate the effect of the Sunday exchanges and facilitate comparison.
