NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1 BASIS OF PRESENTATION

The Consolidated Financial Statements included herein are unaudited. In the opinion of management, these statements contain all adjustments (consisting of only normal recurring items) necessary to present fairly the financial position of Lee Enterprises, Incorporated and subsidiaries (the Company) as of June 30, 2002 and the results of operations and cash flows for the periods presented. These Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and Notes thereto included in the Company's 2001 Annual Report on Form 10-K.

Because of seasonal and other factors, the results of operations for the three months and nine months ended June 30, 2002 are not necessarily indicative of the results to be expected for the full year.

Certain amounts as previously reported have been reclassified to conform with the current period presentation.

2 INVESTMENT IN ASSOCIATED COMPANIES

The Company has a 50% ownership interest in Madison Newspapers, Inc. (MNI), a company that publishes daily and Sunday newspapers and other publications in Madison, Wisconsin, four other daily newspapers and various other publications in Wisconsin.

Summarized financial information of MNI is as follows:

(Thousands)	Three Months Ended June 30		Nine Months Ended June 30	
	2002	2001	2002	2001
Revenue	\$ 27,980	\$ 25,849	\$ 78,850	\$ 79,865
Operating expenses, excluding depreciation and amortization	19,214	19,219	55,257	57,945
Depreciation and amortization	1,407	1,161	3,382	3,483
Operating income	7,359	5,469	20,211	18,437
Net income	4,395	3,293	12,254	11,062

In April 2002, a subsidiary of MNI acquired the assets of Citizen Newspapers, LLC, which owns the Beaver Dam Daily Citizen and various other publications published in Wisconsin. Debt of MNI totaled \$34,343,000 at June 30, 2002 and \$20,000,000 at June 30, 2001.

3 INCOME TAXES

The provision for income taxes includes deferred taxes and is based upon estimated annual effective tax rates in the tax jurisdictions in which the Company operates.

The favorable resolution of tax issues reduced income tax expense by approximately \$10,000,000 for the quarter ended June 30, 2002. The Company has favorably resolved one element of a federal tax claim related to the deductibility of losses on the 1997 sale of a business, which Internal Revenue Service regulations had previously disallowed. Due to the uncertainty of a favorable resolution at the time of sale, the amount claimed was reserved in the Consolidated Financial Statements. The reversal has been recorded in results from continuing operations as a reduction of income tax expense. Additional elements of the claim remain open and, if resolved favorably, would result in additional reduction of tax expense in future periods.

A \$4,000,000 reduction of income tax expense has been recorded in results from discontinued operations in the quarter ended June 30, 2002, from changes in estimates related to state taxes on the sale of broadcasting operations in October 2000 and thereafter.

In July 2002, the Company announced that effective October 1, 2002, stock option grants would be accounted for as an expense in the Consolidated Statements of Income, according to the provisions of Statement of Financial Accounting Standards 123, Accounting for Stock-Based Compensation.

5 ACQUISITIONS

In April 2002, the Company acquired the stock of Howard Publications, Inc. (Howard), a privately owned company comprised of 15 daily newspapers, 50% of the stock of Sioux City Newspapers, Inc. (SCN), and related specialty publications. The transaction was valued at approximately \$697,000,000 after taking into account \$50,000,000 of cash on the Howard balance sheet to be retained by the Company, and other adjustments. Certain non-publishing businesses of Howard were not included in the transaction.

The Company paid the purchase price and expenses related to the transaction from \$434,000,000 of available funds, including proceeds from the sale of its broadcast properties, which was substantially completed in October 2000, and revolving loans under the terms of a five year, \$350,000,000 credit agreement dated as of March 28, 2002 among the Company, Bank of America, N.A. (BoFA), as administrative agent, and the other lenders party thereto. The initial interest rate of the revolving loans is, at the option of the Company, LIBOR plus 1.25% or a base rate equal to the greater of the federal funds rate plus 0.5% or the BoFA prime rate. The credit agreement contains covenants, including interest coverage and leverage ratios, which are not expected to be restrictive to normal operations or historical amounts of stockholder dividends.

The representations and warranties of Howard stockholders are secured for varying amounts pursuant to an escrow agreement between the Company and the indemnifying Howard stockholders.

Because of the size and complexity of the acquisition, the Company has not yet completed the required determination of fair value of the assets and liabilities of Howard and related allocation of the purchase price. A significant portion of the total purchase price will be allocated between separately identifiable intangible assets, which may have finite lives and goodwill, which is not subject to amortization. Accordingly, the final determination of value could result in a significant increase or decrease in amortization expense in future periods from the amounts estimated for the quarter ended June 30, 2002, and reported results overall. For

example, the Company would record additional amortization expense of \$500,000 annually for every \$10,000,000 of value allocated to identifiable intangible assets, assuming a twenty-year useful life, compared to no amortization expense being recorded if such value is allocated to goodwill or an indefinite lived intangible asset. Any changes from amounts previously estimated would not impact the Company's cash flows. Amortization expense recorded in the Consolidated Financial Statements related to the Howard acquisition for the quarter ended June 30, 2002, was estimated at approximately \$4,400,000.

In July 2002, the Company acquired the remaining fifty percent interest in SCN from a privately owned company. The transaction was valued at \$60,300,000 and was funded in part with approximately \$42,000,000 in cash and temporary cash investments. The remainder of the purchase price was funded by the Company's credit agreement. \$3,000,000 of the purchase price is payable in November 2002. The Company's Flathead group of weekly newspapers in Montana was transferred as partial consideration for the purchase. The Company recognized an after-tax loss of \$2,688,000 on the transfer of the Flathead newspapers, which was recorded in discontinued operations for the quarter ended June 30, 2002.

The pro forma consolidated statements of income for the nine months ended June 30, 2002 and the three and nine months ended June 30, 2001, set forth below, present the results of operations as if the acquisition of Howard, including 50% of SCN, had occurred at the beginning of each period and are not necessarily indicative of future results or actual results that would have been achieved had the acquisition occurred as of the beginning of the period.

	Three Months Ended June 30	Nine Months Ended June 30

6 SALES OF ASSETS

In December 2001, the Company sold all of the assets of its specialty publication in Klamath Falls, Oregon. In January 2002, the Company sold all of the operating assets of its specialty publications in Las Vegas, Nevada, Great Falls, Montana and St. George, Utah. In February 2002, the Company sold all of its operating assets of its specialty publication in Redding, California. Net proceeds from the sales totaled approximately \$7,075,000. The Company realized a net loss on the transactions. The estimated loss, which was recognized in the year ended September 2001, approximates the actual amount.

7 STOCK OWNERSHIP PLANS

A summary of activity related to the Company's stock option plan is as follows:

(Thousands, except per common share data)	Shares	Weighted Average Exercise Price
Outstanding at September 30, 2001	967	\$ 26.44
Granted	290	35.60
Exercised	(151)	25.67

Options to purchase 1,004,875 shares of common stock with a weighted average exercise price of \$26.50 per share were outstanding at June 30, 2001.

8 IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In July 2001, the FASB issued Statement 141, Business Combinations, and Statement 142, Goodwill and Other Intangible Assets. Statement 141 requires that the purchase method of accounting be used for all business combinations initiated or completed after June 30, 2001. Statement 141 also specifies criteria intangible assets acquired in a purchase method business combination must meet to be recognized and reported apart from goodwill. Statement 142 requires that goodwill and intangible assets with indefinite useful lives no longer be amortized, but instead tested for impairment at least annually. Statement 142 also requires that intangible assets with definite useful lives be amortized over their respective estimated useful lives to their estimated residual values, and reviewed for impairment in accordance with Statement 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of.

In August 2001, FASB issued Statement 144, Accounting for the Impairment or Disposal of Long-Lived Assets, which supersedes FASB Statement 121, discussed above, but retains the fundamental provisions of Statement 121 with regard to recognition and measurement of impairment of long-lived assets.

The Company was required to adopt the provisions of Statement 141 immediately, except with regard to business combinations initiated prior to July 1, 2001, and Statements 142 and 144 effective no later than October 1, 2002. Furthermore, intangible assets determined to have an indefinite useful life and goodwill that are acquired in a purchase business combination completed after June 30, 2001 will not be amortized. The Company elected to adopt Statements 141, 142 and 144 effective October 1, 2001.

Statement 141 requires, upon adoption of Statement 142, that the Company evaluate its existing intangible assets and goodwill that were acquired in a prior purchase business combination, and make any necessary reclassifications in order to conform with the new criteria for recognition apart from goodwill. Upon adoption of Statement 142, the Company reassessed the useful lives and residual values of all intangible assets acquired in purchase business combinations. In addition, the Company is required to test the intangible assets identified as having an indefinite useful life and goodwill for impairment in accordance with the provisions of Statement 142. There were no significant reclassifications or impairment losses identified as a result of adoption.

Changes in the carrying amount of goodwill are as follows:

(Thousands)	Three Months Ended June 30		Nine Months Ended June 30	
	2002	2001	2002	2001
Goodwill, beginning of period	\$ 220,847	\$ 239,349	\$ 230,231	\$ 241,960

Net income, as adjusted	\$ 32,088	\$ 17,249	\$ 63,212	\$305,301

The earnings per common share impact related to the adoption of these statements is as follows:

As discussed in Note 5, the Company has not yet completed the allocation of the purchase price for the Howard acquisition. As a result, no amounts have been allocated between identifiable intangible assets and goodwill.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion includes comments and analysis relating to the Company's results of operations and financial condition as of and for the three months and nine months ended June 30, 2002. This discussion should be read in conjunction with the Consolidated Financial Statements and related Notes thereto.

FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides a "Safe Harbor" for forward-looking statements. This report contains information that may be deemed forward-looking and that is based largely on the Company's current expectations and is subject to certain risks, trends and uncertainties that could cause actual results to differ materially from those anticipated. Among such risks, trends and other uncertainties are changes in advertising demand, newsprint prices, interest rates, labor costs, legislative and regulatory rulings and other results of operations or financial conditions, difficulties in integration of acquired businesses or maintaining employee and customer relationships and increased capital and other costs. The words "may," "will," "would," "could," "believes," "expects," "anticipates," "intends," "plans," "projects," "considers" and similar expressions generally identify forward-looking statements. Readers are cautioned not to place undue reliance on such forward-looking statements, which are made as of the date of this report. The Company does not undertake to publicly update or revise its forward-looking statements.

CONTINUING OPERATIONS -- QUARTER ENDED JUNE 30, 2002

(1) EBITDA is not a financial performance measurement under accounting principles generally accepted in the United States (GAAP), and should not be considered in isolation or as a substitute for GAAP performance measurements. EBITDA is also not reflected in the Consolidated Statements of Cash Flows, but it is a common and meaningful alternative performance measurement for comparison to other companies in the newspaper publishing industry. The computation also excludes other nonoperating items, primarily interest, gains and losses on sales of assets and losses related to other ventures.

All categories of revenue were substantially impacted by the acquisition of Howard, which the Company purchased April 1, 2002. In total, acquisitions accounted for \$54,903,000 of revenue growth in the current year quarter. Businesses sold in the current year did not impact revenue in the current year quarter but accounted for \$2,599,000 of revenue in the prior year quarter.

The Howard acquisition fits the Company's core strategy of buying midsize newspapers in growing markets and will further strengthen the Company's standing as the pre-eminent newspaper group serving midsize markets.

REVENUE -- SAME PROPERTY

THE FOLLOWING DISCUSSION OF REVENUE IS PRESENTED ON AN OPERATING BASIS, WHICH INCLUDES 100% OF THE REVENUE AND EXPENSES OF MNI, WHICH IS OWNED 50% BY THE COMPANY AND ACCOUNTED FOR IN THE CONSOLIDATED FINANCIAL STATEMENTS USING THE EQUITY METHOD. IT IS ALSO EXCLUSIVE OF ACQUISITIONS AND DIVESTITURES. THE COMPANY BELIEVES SUCH COMPARISONS PROVIDE THE MOST MEANINGFUL INFORMATION FOR AN UNDERSTANDING OF ITS BUSINESS.

The quarter ended June 30, 2002 had the same number of Sundays and weekdays as the same period last year.

For the quarter ended June 30, 2002, total revenue increased \$1,173,000, or 0.9%, with an increase in total advertising revenue of \$631,000, or 0.7%, and an increase in total daily newspaper advertising lineage of 2.8%. Retail revenue increased \$1,645,000, or 3.3%, and retail average rates increased 0.8% during the same three-month period.

Classified advertising revenue decreased approximately \$1,047,000, or 3.1%, for the quarter ended June 30, 2002. Higher margin employment advertising at the daily newspapers accounted for substantially all of the decrease and declined 15.7% for the period. The national help-wanted index registered a 19% decline in employment advertising lineage for the same period. Real estate advertising increased 4.8% due in part to attractive mortgage rates. Automotive advertising increased 1%.

Circulation revenue increased \$310,000, or 1.2%. The Company's same property unaudited daily newspaper circulation increased 1.2% and Sunday circulation increased 0.7% for the quarter ended June 30, 2002. The Company remains focused on growing circulation units through a number of initiatives.

Other revenue increased \$952,000, or 4.7%. Internet/online revenue increased \$445,000, or 27.5%, due to growth in advertising revenue and cross-selling with the Company's newspaper advertising.

Advertising lineage, as reported on a same property operating basis for daily newspapers only, consists of the following:

Advertising:			
Retail	1,846	1,814	1.8%

OPERATING EXPENSES AND RESULTS OF OPERATIONS

The following table sets forth the percentage of revenue of certain operating expenses as reported in the Consolidated Financial Statements:

	Three Months Ended June 30	
	2002	2001
Compensation	38.4%	38.3%
Newsprint and ink	8.2	10.1
Other operating expenses	23.1	23.6
	69.7	72.0
EBITDA margin	30.3	28.0
Depreciation and amortization	7.5	7.2
Operating margin	22.8%	20.8%

Costs other than depreciation and amortization increased \$34,830,000, or 43.9%. All categories of expenses were impacted by the acquisition of Howard, which the Company purchased April 1, 2002. In total, acquisitions accounted for \$38,230,000 of operating costs other than depreciation and amortization in the current year. Businesses sold in the current year did not impact operating expenses in the current year quarter but accounted for \$2,250,000 of such expenses, other than depreciation and amortization, in the prior year quarter. Compensation expense increased \$20,763,000, or 49.2%, as workforce reductions, delayed salary increases and both one-time and permanent changes in benefit programs in existing businesses were more than offset by costs of acquired businesses. Overall, same property full-time equivalent personnel declined 1.3%. Newsprint and ink costs increased \$2,219,000, or 19.9%, as the result of continued price decreases and a 0.4% decrease in same property consumption offset by costs of acquired businesses. Other operating costs, exclusive of depreciation and amortization, increased \$11,848,000, or 45.6%.

On October 1, 2001 the Company adopted the provisions of FASB Statements 141 and 142. As a result, goodwill acquired in a purchase business combination is no longer being amortized, but is tested for impairment annually. Amortization expense related to goodwill was \$1,974,000 for the three months ended June 30, 2001. The change in depreciation and amortization expense from the prior year is primarily due to the acquisition of Howard, offset by the change in goodwill amortization.

Because of the size and complexity of the acquisition, the Company has not yet completed the required determination of fair value of the assets and liabilities of Howard and related allocation of the purchase price. A significant portion of the total purchase price will be allocated between separately identifiable intangible assets, which may have finite lives and goodwill, which is not subject to amortization. Accordingly, the final determination of value could result in a significant increase or decrease in amortization expense in future periods from the amounts estimated for the quarter ended June 30, 2002, and reported results overall. For example, the Company would record additional amortization expense of \$500,000 annually for every \$10,000,000 of value allocated to identifiable intangible assets, assuming a twenty-year useful life, compared to no amortization expense being recorded if such value is allocated to goodwill or an indefinite lived intangible asset. Any changes from amounts previously estimated would not impact the Company's cash flows. Amortization expense recorded in the Consolidated Financial Statements related to the Howard acquisition for the quarter ended June 30, 2002, was estimated at approximately \$4,400,000.

EBITDA improved 60.6% to \$49,541,000 from \$30,836,000 in the prior year. EBITDA

margin improved to 30.3% from 28.0% in the prior year. The Company's efforts at controlling expenses and lower newsprint prices all contributed to the improvement, offset to some extent by lower margins of acquired businesses. Operating margin increased to 22.8% from 20.8% for the same reasons, but was further impacted by a higher level of amortization from acquisitions, offset by the goodwill accounting change.

NONOPERATING INCOME AND INCOME TAXES

Financial income decreased \$6,000,000 to \$470,000. The Company's invested balances decreased \$434,000,000 due to the April 1, 2002 acquisition of Howard. Reinvestment rates on remaining balances have also declined from the prior year.

The effective income tax rates were 5.6% and 35.5% for the quarters ended June 30, 2002 and 2001, respectively. The favorable resolution of tax issues reduced income tax expense by approximately \$10,000,000 in the current year quarter. The effective rate would have been 36.3% without the adjustment. The prior year effective tax rate included the effect of goodwill amortization that was not deductible for tax purposes.

REVENUE -- SAME PROPERTY

THE FOLLOWING DISCUSSION OF REVENUE IS PRESENTED ON AN OPERATING BASIS, WHICH INCLUDES 100% OF THE REVENUE AND EXPENSES OF MNI, WHICH IS OWNED 50% BY THE COMPANY AND ACCOUNTED FOR IN THE CONSOLIDATED FINANCIAL STATEMENTS USING THE EQUITY METHOD. IT IS ALSO EXCLUSIVE OF ACQUISITIONS AND DIVESTITURES. THE COMPANY BELIEVES SUCH COMPARISONS PROVIDE THE MOST MEANINGFUL INFORMATION FOR AN UNDERSTANDING OF ITS BUSINESS.

The nine months ended June 30, 2002 had the same number of Sundays and weekdays as the same period last year.

For the nine months ended June 30, 2002, total revenue declined \$7,628,000, or 1.9%, with a decline in total advertising revenue of \$6,160,000, or 2.4%, and a decline in total daily newspaper advertising lineage of 0.9%. Retail revenue increased \$399,000, or 0.3%, while retail average rates increased 2.3% during the same nine-month period.

Classified advertising revenue decreased approximately \$6,043,000, or 6.3%, in 2002. Higher margin employment advertising at the daily newspapers accounted for substantially all of the decrease and declined 24.8% for the nine-month period.

Circulation revenue increased approximately \$304,000, or 0.4%. The Company's same property unaudited daily newspaper circulation increased 1.3% and Sunday circulation increased 0.4% for the nine months ended June 30, 2002. The Company is focused on growing circulation units through a number of initiatives.

Other revenue decreased \$1,772,000, or 2.9%. Commercial printing declined \$1,613,000, or 6.4%, due to losses of, or declines in volume from, key customers. Internet/online revenue increased \$967,000, or 21.8%, due to growth in advertising revenue and cross-selling with the Company's newspaper advertising, partially offsetting the overall decline in other revenue.

Advertising lineage, as reported on a same property operating basis for daily newspapers only, consists of the following:

OPERATING EXPENSES AND RESULTS OF OPERATIONS

The following table sets forth the percentage of revenue of certain operating expenses as reported in the Consolidated Financial Statements:

	Nine Months Ended

Compensation	38.4%	38.4%
Newsprint and ink	8.4	9.7

Operating margin	23.2%	20.1%

Costs other than depreciation and amortization increased \$24,704,000, or 10.3%. All categories of expenses were impacted by the acquisition of Howard, which the Company purchased April 1, 2002. In total, acquisitions accounted for \$38,230,000 of operating costs other than depreciation and amortization in the current year.

Businesses sold in the current year accounted for \$2,112,000 of operating expenses other than depreciation and amortization, in the current year and \$7,821,000 of such expenses in the prior year. Compensation expense increased \$17,227,000, or 13.6%, as workforce reductions, delayed salary increases and both one-time and permanent changes in benefit programs in existing businesses were more than offset by costs of acquired businesses. Overall, same property full-time equivalent personnel declined 2.9%. Newsprint and ink costs decreased \$512,000, or 1.6%, as the result of continued price decreases offsetting a 0.6% increase in same property consumption and costs of acquired businesses. Other operating costs, exclusive of depreciation and amortization, increased \$7,989,000, or 9.9%.

On October 1, 2001 the Company adopted the provisions of FASB Statements 141 and 142. As a result, goodwill acquired in a purchase business combination is no longer being amortized, but is tested for impairment annually. Amortization expense related to goodwill was \$5,922,000 for the nine months ended June 30, 2001. The change in depreciation and amortization expense from the prior year is primarily due to the acquisition of Howard, offset by the change in goodwill amortization.

EBITDA improved 22.1% to \$110,131,000 from \$90,183,000. EBITDA margin improved to 29.5% from 27.4% in the prior year. The Company's efforts at controlling expenses and lower newsprint prices all contributed to the improvement, offset to some extent by lower margins of acquired businesses. Operating margin increased to 23.2% from 20.1% for the same reasons, but was further impacted by a higher level of amortization from acquisitions, offset by the goodwill accounting change.

NONOPERATING INCOME AND INCOME TAXES

Financial income decreased \$18,707,000 to \$5,705,000 in 2002, due to a significant decline in reinvestment rates in the Company's investment portfolio. Further, the Company's invested balances decreased due to the acquisition of Howard and tax payments related to the sale of broadcast operations in October 2000.

The effective income tax rates were 23.4% and 36.5% for the nine months ended June 30, 2002 and 2001, respectively. The favorable resolution of tax issues reduced income tax expense by approximately \$10,000,000 in the current year. The effective rate would have been 35.7% without the adjustment. The prior year effective tax rate included the effect of goodwill amortization that was not deductible for tax purposes.

DISCONTINUED OPERATIONS

In March 2000, the Board of Directors of the Company made a determination to sell its broadcast properties. In May 2000 the Company entered into an agreement to sell substantially all of its broadcasting operations, consisting of eight network-affiliated and seven satellite television stations, to Emmis Communications Corporation and consummated the transaction in October 2000. The net proceeds of approximately \$565,000,000 resulted in an after-tax gain for financial reporting purposes of approximately \$250,800,000. The results for the broadcast properties have been classified as discontinued operations for all periods presented.

In July 2001, the Company completed the sale of its last broadcasting property. Net proceeds of the sale totaled approximately \$7,600,000. The after-tax gain of approximately \$4,000,000 on the sale is reflected in discontinued operations.

A \$4,000,000 reduction of income tax expense has been recorded in results from discontinued operations in the quarter ended June 30, 2002, from changes in estimates related to state taxes on the sale of broadcasting operations.

In July 2002, the Company acquired the remaining fifty percent interest in SCN. The Company's Flathead group of weekly newspapers in Montana was transferred as partial consideration for the purchase. The Company recognized an after-tax loss of \$2,688,000 on the transfer of the Flathead newspapers, which is recorded in discontinued operations in the quarter ended June 30, 2002.

LIQUIDITY AND CAPITAL RESOURCES

Cash provided by operating activities of continuing operations was \$84,810,000 for the nine months ended June 30, 2002 and \$70,855,000 for the same period in 2001. Increased income from continuing operations and changes in working capital account for the change between years.

Cash required for investing activities totaled \$486,480,000 during the nine months ended June 30, 2002, and \$293,074,000 in the same period of the prior year. Acquisitions account for substantially all of the current year usage. Investment purchases were responsible for the primary usage of funds in the prior year.

The Company anticipates that funds necessary for capital expenditures, which are expected to total approximately \$11,000,000 in 2002, and other requirements will be available from internally generated funds, or from availability under its existing credit agreement and, if necessary, by accessing the capital markets.

Cash provided by financing activities totaled \$240,473,000 during the nine months ended June 30, 2002, and required \$62,351,000 in the prior year.

The Company entered into a five year, \$350,000,000 credit agreement in March 2002. The primary purposes of the agreement were to fund the acquisitions of Howard and SCN, and to provide liquidity for other corporate purposes. \$264,000,000 was borrowed under this agreement in the quarter ended June 30, 2002. In July 2002 the Company borrowed \$15,000,000 to consummate the acquisition of SCN.

Under the terms of the Company's 1998 Note Purchase Agreement (1998 Agreement), the Company was required to repay the outstanding balance of \$161,800,000 on October 1, 2002 unless the Company reinvested the net proceeds of the sale of its broadcast operations or obtained a waiver or amendment of that provision of the 1998 Agreement. The acquisition of Howard satisfies the conditions of the Company's 1998 Agreement with regard to reinvestment of the net proceeds of the sale of broadcast operations. If repayment had been required, a substantial prepayment penalty would have also been required, based upon interest rates in effect at that time. Other covenants under the 1998 agreement are not considered restrictive to normal operations or historical amounts of stockholder dividends.

Cash required for discontinued operations totaled \$43,162,000 during the nine months ended June 30, 2002, primarily for income tax payments related to the gain on sale of discontinued operations. Cash provided by discontinued operations totaling \$435,976,000 in the prior year primarily reflects net proceeds from the sale of such operations.

OTHER FACTORS

The Company has not been significantly impacted by inflationary pressures over the last several years. The Company anticipates that changing costs of newsprint, its basic raw material, may impact future operating costs. Price increases (or decreases) for the Company's products are implemented when deemed appropriate by management. The Company continuously evaluates price increases, productivity improvements and cost reductions to mitigate the impact of inflation.

MARKET RISK MANAGEMENT

The Company is exposed to market risk stemming from changes in interest rates and commodity prices. Changes in these factors could cause fluctuations in earnings and cash flows. In the normal course of business, exposure to certain of these market risks is managed as described below.

INTEREST RATES

Interest rate risk in the Company's investment portfolio is managed by investing only in securities with a maturity at date of acquisition of 180 days or less. Only high-quality investments are considered. In April 2002, the Company liquidated substantially all of its investment portfolio in conjunction with the acquisition of Howard.

The Company's debt structure and interest rate risk are managed through the use of fixed and floating rate debt. The Company's primary exposure is to United States interest rates.

COMMODITIES

Certain materials used by the Company are exposed to commodity price changes. The Company manages this risk through instruments such as purchase orders and non-cancelable supply contracts. The Company is also involved in continuing programs to mitigate the impact of cost increases through identification of sourcing and operating efficiencies. Primary commodity price exposures are newsprint and, to a lesser extent, ink.

A \$10 per ton newsprint price increase would result in an annualized reduction in income from continuing operations before income taxes of approximately \$790,000, excluding MNI.

SENSITIVITY TO CHANGES IN VALUE

The estimate that follows is intended to measure the maximum potential impact on fair value of fixed-rate debt of the Company in one year from adverse changes in market interest rates under normal market conditions. The calculations are not intended to represent actual losses in fair value that the Company expects to incur. The estimates do not consider favorable changes in market rates. The position included in the calculations is fixed-rate debt, which totals \$161,800,000 at June 30, 2002.

The estimated maximum potential one-year loss in fair value from a 100 basis point movement in interest rates on market risk sensitive instruments outstanding at June 30, 2002 is approximately \$6,900,000. There is no impact on operating results from such changes in interest rates.
